GLOW
PRESSKIT

BIO

Award-winning, LA-based violinist, music producer, and DJ Alfiya Glow is forging a path where emotion, precision, and imagination converge. Seamlessly blending live violin with electronic production, she creates immersive sonic experiences that resonate across global stages, from Walt Disney Concert Hall and Insomniac's Electric Forest to her role as lead violinist for Netflix's Bridgerton Experience in Los Angeles.

Rooted in musicality, storytelling, and creative originality, she weaves analogue expression with digital sound design, a signature style that has earned support from artists like Nora En Pure and EDX, inspired releases on genre-defying labels such as Enormous Tunes, and led to collaborations with luxury brands including Netflix, Ferrari, and Google.

As Alfiya continues to expand her reach, she emerges as a singular voice in today's music landscape — a luminous force blending elegance and innovation with a sound that is unmistakably her own.
